

"Safer Boundaries, Safer Children"

A Parent Workshop

Child sexual abuse. It's not just in the news, it's in our communities. It thrives in an environment of secrecy, denial, and ignorance. How do we create safe boundaries for our children and learn how to live in the spirit of educated freedom instead of fear? This workshop educates parents on the existence of child sexual abuse and gives them some of the tools they need to reduce the risk to their children. Come be part of the conversation and take away skills and resources needed to set safe boundaries for your children.

Gene and Robin Greiner are advocates, parents, and survivors with a passion to call the faith community to use its voice to prevent and respond with excellence to child sexual abuse. For more information, visit us at www.speakyourlight.org.
